L. L. Tenardent & Co.

We returned yesterday by express the charges prepaid the Nitrodulate VI Tetrachloro, as it is not of the finest execution of which we desired specimens, the price is high and the discount is too small.

We are endeavoring to dispose of the Trésor de Numismatique here and will inform you definitely about it as soon as possible.

We did not send the Nitrodulate away unopened and thank you for forwarding it for inspection we remain

Yours very respectfully

Gentlemen

We have recieved your letter and the box containing the coins you return and ten dollars which have been placed to your credit

We must answer you: 1° About « Le Tresor de Numismatique et de Glyptique » that we did not sold it to the Astor Library and do not know anything about what they paid for it. — 2° About the First Class of Gordianus II. africanus we have only to say that it is genuine antique and are very sorry that after examination you have not found it so.

Mr. Feuardent being very busy has not been able to answer himself

Yours truly.
